RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

The Business and Industry Association (BIA) is New Hampshire's statewide chamber of commerce and leading business advocate. Through advocacy with state legislators and regulators, we shape business-friendly public policy and provide counterbalance to legislation and regulations that threaten the growth and prosperity of New Hampshire business. The BIA represents more than 400 members in a variety of industries, including advanced manufacturing, high technology, professional services, financial services, health care, hospitality and tourism, public utilities, higher education and insurance. Member firms employ 80,000 people throughout the state and contribute \$4.5 billion annually to the state's economy.

Comcast has been a part of our New Hampshire business community since 2002, providing quality cable television, voice and high speed broadband Internet services to over 100 towns and cities across our state. Comcast has heavily invested in New Hampshire, fully upgrading its network to offer competitive telephone services and now internet of 50 Mbps to over 420,000 New Hampshire businesses and residences. It is my view that Comcast, once partnered with NBC, will continue to offer high-quality content and consumer choice. This venture will be beneficial for Comcast's business customers in New Hampshire.

Our overall experience with Comcast has been very positive. We hope you'll add our views to your analysis while evaluating this potentially groundbreaking deal.

Sincerely,

Jim Roche
President
